Extra Cost Option - Screen Print Designs

GRAFIX

Exclusive and vibrant designs to bring fun to kids washrooms. Our designs are embedded in the panel at fabrication stage to ensure the highest level of durability.

Note: Grafix designs incur extra cost over standard finishes. Grafix designs are only available in SGL material.

PANEL PERFORMANCE OPTIONS

High Pressure Laminate (HPL)

- For dry environments/ light to medium traffic areas.
- 0.8mm high pressure laminate bonded to moisture resistant 16mm particleboard core to give nominal 18mm panel thickness.
- Edges lipped in matching 2mm impact resistant APS.

Solid Grade Laminate (SGL)

- For wet and dry use/ suitable for high traffic environments as impervious to water.
- Nominal 13mm panel thickness/ solid black through core.
- Edges radiused and polished black finish.

All finishes benefit from a Sanitized® antibacterial treatment that eliminates 99.9% of the bacteria.

*excluding Grafix range

Notice - colour appearance may vary from this printed swatch, we offer a 48hr sample service and recommend you order samples of the colours you are interested in to give an accurate colour match. Textures and Woodgrains are not all to scale.
